

World Congress on Recent Advances in Aquaculture Research & Fisheries

On behalf of Pulsus, we are glad to be inviting the conference "World Congress on Recent Advances in Aquaculture Research & Fisheries" held on October 16-17, 2020 at Vienna, Austria.

Aqua Culture 2020 goal is to appraise the aquaculture experts with modern developments and the newest technologies by gathering the professionals of aquaculture. Here you can meet all the professors, experts, researchers, faculty, students, and many more and grow your connections across the world in your field.

The Aqua Culture 2020 conference theme is "**Sustainable Aquaculture and Fishery**".

The conference has been conferred during presentations of the two-day event, which echo the current education research, developments and innovations internationally and as evidenced in both Palliative Education and Evidence Based Practice.

Conference Highlights:

Aqua Culture 2020, Advances in Aquaculture includes farming of aquatic echinoderms, sponges, jelly fishes. They are cultivated according to their size and specific requirements.

Many tracks involving in the conference session like Aqua culture in food and Nutrition security, Environmental effects in aquaculture and fishery, Fishery science, Innovation in fishery tools etc.

Aqua Culture 2020 include commercial sector but it is in very small scale, the fishing is in a traditional way such as rod and tackle, arrows and harpoons, throw nets and drag nets, etc.
