

Innovative and Sustainable Aquaculture

Nihar Ranjan Chattopadhyay

Faculty of Fishery Sciences, West Bengal University of Animal & Fishery Sciences, India

The forthcoming Aquaculture Congress 2021 brings together leading researchers to discuss the most cutting-edge issues in Fisheries & Aquaculture, Fisheries Management, Fisheries Science, Classification of Aquatic Animals, Marine Biology, Population Dynamics of Fisheries, Alloys in Aquaculture, Integrated Multi-Trophic Aquaculture, and many other fascinating topics under the theme "Sustainable Aquaculture and Fishery."

The Aquaculture Conferences series will be a major gathering for cooperative researchers in Fisheries and Aquaculture from around the world to share and network.

Sharing one's expertise and understanding with the Aquaculture world is the only way to accomplish the shared purpose of advancing science and inventions. Join us for our 11th International Conference on Fisheries and Aquaculture Webinar on October 04-05, 2021, to meet, read, and share your cutting-edge science. We are hoping that this conference will be one of the strongest of the others.

Opportunities at the conference:

- Keynote Speech
- Oral Presentation
- Video Presentation
- Poster Presentation
- Young Research Forum
- Student Poster Presentation
- Exhibition
- Sponsorship
- Delegate
- Collaboration Opportunities
- Business networking

Why to Attend?

Many research programmes are currently underway around the world to identify alternative approaches and paths for improved aquaculture for fisheries and related research. Aquaculture research is a never-ending thirst for fisheries. The more you investigate, the more you become intrigued by the enigmatic and amazing case.

The Aquaculture Conference 2021 will offer a global forum for scientists, academics, and other researchers to share their findings. The below are few main points:

- Platform to showcase the research
- Workshops, Expo areas, Sessions
- Networking with colleagues
- Keynote speech by Professors and Eminent Personalities
- Educational Workshops
- Interaction with well-established companies in the world
- And many more...

Target Audiences:

- Aqua culturist
- Aquaculture Students, Researchers
- Aquaculture & Fisheries Professors
- Aquaculture Scientists
- Aquaculture and fishery safety officers
- Fisheries technician
- Aqua Health Care Professionals
- Directors and CEO's of research-based firms
- Manufacturing Aquaculture Device Companies
- Marine and Ocean Associations societies
- Business entrepreneurs in Aquaculture and Fisheries Sciences

Conference Highlights:

- Aquaculture
- Mariculture
- Aquaculture Feed
- Technologies in Aquaculture
- Coastal Studies
- Fishery
- Industrial Aquaculture
- Fisheries Management
- Fisheries Science
- Fish Hatchery
- Classification of Aquatic Animals
- Marine Biology
- Aquaculture in Food and Nutrition Security
- Environmental Effects in Aquaculture and Fishery
- Population Dynamics of Fisheries
- Alloys in Aquaculture
- Integrated Multi-Trophic Aquaculture
- Innovation in Fishery Tools
- Aquaculture and Fishery Statistical Analysis
- Recirculating Aquaculture System
