

Exploring Recent research in Aquaculture and Fisheries

Mamcarz Andrzej

Faculty of Environmental Sciences, University of Warmia & Mazury, Poland

We extend a warm welcome to all participants for the “12th Global Summit on Aquaculture & Fisheries” Webinar on July 20-21, 2021, on behalf of the organizing committee. Aquaculture Conference 2021 has an intriguing theme “Innovative and Sustainable Aquaculture”.

Aquaculture 2021 aims to bring all life science practitioners together for our Aquaculture Meetings so that they can engage and share their expertise and latest research with the entire aquaculture stream.

All Aquaculture Specialists, Professionals, Delegates, Researchers, and Students are cordially invited to join us in the UAE. The Young Scientist Feature is a platform for young researchers to showcase their achievements and future plans in their field. We expect the Aquaculture 2021 Conference to be as competitive as the previous Aquaculture conferences.

Opportunities at the conference:

- Keynote Speech
- Oral Presentation
- Video Presentation
- Poster Presentation
- Young Research Forum
- Student Poster Presentation
- Exhibition
- Sponsorship
- Delegate
- Collaboration Opportunities
- Business networking

Why to Attend?

With members from all over the world focused on learning about fishing and aquaculture and its advances; this is your best opportunity to reach the largest gathering of participants from the aquaculture and fishing community. Host presentations, distribute information, meet current and potential scientists, and make a splash with new

Developments in aquaculture and receive name recognition during this webinar event. This conference features world-renowned speakers, the most up-to-date techniques, technologies, and aquaculture and fisheries news.

Aquaculture and fisheries scientists, researchers, educators, students, companies, and corporations are expected to attend the Fisheries Conference.

Aquaculture Conference 2021 will offer an international forum to science academic and other researcher to spread their knowledge worldwide. The following are some main points:

- Platform to showcase the research
- Workshops, Expo areas, Sessions
- Networking with colleagues
- Keynote speech by Professors and Eminent Personalities
- Educational Workshops
- Interaction with well-established companies in the world
- And many more...

Target Audiences:

- CROs and CMOs
- Directors, CEO's of Organizations
- R&D Researchers from Aquaculture & Fisheries Industries
- Professors, Associate Professors, Assistant Professors
- PhD Scholars
- Marine biology Professionals
- Aquaculture & Fisheries Colleges
- Aquaculture & Fisheries Faculty
- Research Institutes and members
- Aquaculture & Fisheries industries
- Marine biology Professionals
- Aquaculture & Fisheries Students, Scientists

- Manufacturing Companies and Supply Chain Companies
- Business Entrepreneurs
- Aquaculture & Fisheries Associations and Societies
- Aquaculture & Fisheries Training Institutes

Conference Highlights:

- Aquaculture Nutrition
- Shellfish Farming
- Environmental Impacts in Aquaculture
- Aquaculture Disease and Health Management
- Fishery Resource Analysis and Monitoring
- Genetic Biodiversity in Aquaculture
- Marine Ecology and Biological Oceanography
- Engendering Security in Aquaculture
- Interaction between Aquaculture and Fishery
- Recirculating Aquaculture Systems
- Aquatic Toxicology
- Improving technologies in Aquaculture
- Aquaculture and Fisheries-Facts/Methods
- Fisheries Sciences
- Animal Welfare in Aquaculture
- Sustainability in Aquaculture
- Aquaculture Methods
- Fisheries Conservation & Management
