Unveiling Novel Research & Technology to Better Aquaculture and Marine Biology

Bela H. Buck

Marine Biologist, Alfred Wegener Institute for Polar and Marine Research, Germany

The 4th International Conference on Aquaculture and Marine Biology is pleased to invite participants from all over the world to attend the prestigious conference, which will take place in Rome, Italy on September 27-28, 2021. The conference serves as a global coliseum for foreign scholars to present their research findings. The atmosphere is exciting, with open and friendly contact between attendees, with representatives from all of the main countries in attendance. This is a conference for the aquaculture and marine biology industries to learn about current and upcoming issues, discuss new innovations in culture technology, and network with those who share their interests. This conference brings together a unique and international mix of consultants, including academicians, scientists, and business professionals, as well as the general public, current and future fish farmers, to exchange data and ideas about aquaculture and marine biology production. Through browsing the on-going Exhibition, attendees will learn about a variety of topics related to aquaculture and marine biology, as well as the most current aquaculture equipment and items.

The conference is open to anyone with an interest in aquaculture or marine science, as well as potential farmers, researchers, teachers, students, or agency personnel with jobs in aquaculture or marine biology. People who offer products or services to the aquaculture and marine biology industries will also benefit from the meeting.

Opportunities at the conference:

- Keynote Speech
- Oral Presentation
- Video Presentation
- Poster Presentation
- Young Research Forum
- Student Poster Presentation
- Exhibition
- Sponsorship

- Delegate
- Collaboration Opportunities
- Business networking

Why to Attend?

To gain a competitive edge, be the first to highlight your science, creativity, and brand. Meet your target market and educate them about your products and services.

- To Meet Experts
- Learning in a New Space
- New Tips & Tactics
- Certification
- Global Networking
- Rebuild New Customer Base
- Brand Establishment

Target Audiences:

- All the Stake Holders (both Academia & Industry) of the Sector
- Researchers & Innovators
- Experts Looking for Collaborative Work
- Product Developers
- Solution Providers
- Sales & Marketing Professionals
- Associations, Societies, & Professional Bodies
- Funding Agencies & Fund Raisers
- Management Bodies
- Decision Makers

Conference Highlights:

- Aquaculture and Fisheries
- Aquatic Ecosystem & Aqua Farming
- Aquatic Diseases & Immunity
- Coastal and Marine Ecosystem
- Coastal and Marine Ecosystem
- Freshwater Biology
- Fisheries Science & Research
- Fish Nutrition
- Seafood Processing
- Sustainable Aquaculture
- Marine Biology
- Marine Biology and Aquatic Science
