

Advancement and Revolutions in the field of Water Pollution and Aquatic Life Research

Bela H. Buck

Marine Biologist, Alfred Wegener Institute for Polar and Marine Research, Germany

We are pleased to announce International Congress on Water Pollution and Aquatic Life on September 23 - 24, 2021, Webinar. This year's conference will focus on water pollution and aquatic life contemporary issues and advances.

The goal of the Second International Conference on Water Pollution and Aquatic Life Healthcare 2021 is to encourage the integration of innovative fields Water Pollution and Aquatic Life. Water Pollution and Aquatic Life 2021 have not only aided in the development of various health care and technology, but they have also contributed significantly to the improvement of human life quality.

The conference will focus on current issues Water Pollution and Aquatic Life. The International Conference on Water Pollution and Aquatic Life on September 23-24, 2021. The International Conference on Water Pollution and Aquatic Life will give a unique platform for academic, scientific, and industry groups to address new concerns, share solutions, and explore future research directions in the domains of Water Pollution and Aquatic Life. Experts, professionals, academicians, and researchers from all over the world are invited to attend the 2nd International Conference on Water Pollution and Aquatic Life. Through interactive sessions and paper presentations, there is a tremendous opportunity to learn and share one's opinions. Eminent professionals, scholars, and postgraduate young researchers will share their perspectives and expand their expertise on a wide range of topics related to Water Pollution and Aquatic Life. Furthermore, Water Pollution and Aquatic Life 2021 will feature plenary lectures, keynote speakers from around the world, and submitted paper presentations.

Opportunities at the conference:

- Keynote Speech
- Oral Presentation
- Video Presentation
- Poster Presentation
- Young Research Forum

- Student Poster Presentation
- Exhibition
- Sponsorship
- Delegate
- Collaboration Opportunities
- Business networking

Target Audiences:

- Aquaculture Specialists
- Marine Biologist
- Professors, Associate Professors, Fellows, Residents
- Young researchers, students
- Business personalities, Industrial experts
- Common people interested in Aquaculture and Marine Biology
- And Others...

Conference Highlights:

- Water Pollution
- Animal welfare in Aqua Culture
- Importance of Aquaculture
- Aquaculture Sustainability
- Aquatic life sciences
- Marine Health and hygiene
- Aquatic Toxicology
- Environmental impacts in Marine
- Marine ecology and Biological Oceanography
- Genetic biodiversity in aquaculture

- Marine Biotechnology
- Interaction between aquaculture and fishery
- Livestock production
