

Editorial Highlights for Journal of Aquaculture Engineering and Fisheries Research

Swetha*

Department of Pharmacy, Bapatla Pharmacy College, India

I am pleased to introduce Journal of Aquaculture Engineering and Fisheries Research a rapid peer reviewed Journal which have a key concerns over the Aquaculture practices by exploring the best culture oriented research related to Aquaculture, Fisheries-related pathologies, Aqua-related diseases and by exhibiting this information both directly, as clinical findings, and in practice oriented formats of direct application in day-to-day situations. I am pleased to announce that, all issues of volume 6 were published online well within the time and the print issues were also brought out and dispatched within 30 days of publishing the issue online during the year of 2019.

The Aquaculture Engineering and Fisheries Research aims to flourish and to maintain the standards in research and practice, provide platform and opportunity to present evidence based findings and analytical assessment of research and probably it is much in deed for students, teachers and scientific professionals to enhance the condition of Aqualife.

The Aquaculture Engineering and Fisheries Research is with National Library of Medicine ID: 101647988 is indexed by Google Scholar and Thomson Reuters' Emerging Sources Citation Index so on...

During the calendar year of 2019, Journal of Spine received a total of 25 manuscript, out of which 13 articles were rejected in the preliminary screening due to plagiarism or being out of the format and peer review process. During

2019 around 12 articles were subjected for publication after they are accepted by the editors in the peer review process. In the 4 issues of Volume 6 published during the year 2019, a total of 12 articles were published (at an average of 3 articles per issue) of which, articles were published from authors all around the world. Globally articles have been accessed by the research scientists and also cited.

During the calendar year 2019, a total of three Editors, nine Reviewers joined the board of Journal of Aquaculture Engineering and Fisheries Research and contributed their valuable services towards contribution as well as publication of articles, and their valuable reviewer comments will beneficial to publish quality of article in the Journal.

Aquaculture Engineering and Fisheries Research will be running its website <https://www.https://www.jaeifr.com/>. parallel for Editorial and review work process so as to maintain its highest standard of scientific work.

I take this opportunity to acknowledge the contribution of Editor in chief during the review process of articles published and the support rendered by the editorial assistant, in bringing out issues of Journal in time. I would also like to express my gratitude to all the authors, reviewers, the publisher, the advisory and the editorial board of Journal of Aquaculture Engineering and Fisheries Research, the office bearers for their support in bringing out yet another volume of Healthy Aging Research and look forward to their unrelenting support to bring out the Volume 7 of the journal in scheduled time.
