

Prospecting the Challenges and Advancements in Aquaculture

Mamcarz Andrzej

Faculty of Environmental Sciences, University of Warmia & Mazury, Poland

3rd European Congress On Aquaculture and Marine Biotechnology is delighted to extend an invitation to delegates from all corners of the globe to attend the prestigious meeting scheduled as Webinar. The conference provides a multinational amphitheater for international scholars to share their scientific findings with the rest of the world. With leaders from all of the major countries present, the atmosphere is energizing, with members cooperating openly and amicably. This is a gathering for the Aquaculture and Marine Biotechnology Industry to learn about current and upcoming topics, explore recent developments in culture innovation, and network with people who have similar interests. This meeting brings together a unique and international group of advisors, including academicians, scholars, and industry experts, as well as total population, traffic, and proposed fish ranchers, to exchange knowledge and ideas about the advancement of Aquaculture and Marine Biotechnology. Through perusing the ongoing Exhibition, participants will learn about a variety of topics related to Aquaculture and Marine Biotechnology, as well as get answers about the new Aquaculture gear and objects. People who provide goods or services to the Aquaculture and Marine Biotechnology industry are also welcome to attend.

Opportunities at the conference:

- Keynote Speech
- Oral Presentation
- Video Presentation
- Poster Presentation
- Young Research Forum
- Student Poster Presentation
- Exhibition
- Sponsorship
- Delegate
- Collaboration Opportunities
- · Business networking

Why to Attend?

This is the best chance to meet the biggest group of attendees from the aquaculture and marine biotechnology, including members from all around the world focusing on learning about fishing and aquaculture and its advancements. The Aquaculture Conference 2021 will offer a global forum for scientists, academics, and other researchers to share their findings. The below are few main points:

- · Platform to showcase the research
- Workshops, Expo areas, Sessions
- Networking with colleagues
- Keynote speech by Professors and Eminent Personalities
- Educational Workshops
- Interaction with well-established companies in the world
- And many more...

Target Audiences:

- · Marine biologist
- Mari culture Scientists
- Aquaculture support worker
- · Oceanography Professors
- Oceanography Researchers
- Aquaculture Nutritionist
- Health Management Professors
- · Fishery product marketers
- · Fishery Managers
- Aquaculture & Fisheries Training Institutes
- Research students and PhD's
- Academics working in the fields of aquaculture biology and fisheries science

3rd European Congress on Aquaculture and Marine Biotechnology September 29, 2021 | Webinar

Conference Highlights:

- Marine Science
- Animal welfare in Aqua Culture
- Importance of Aquaculture
- Aquaculture Sustainability
- Freshwater Aquaculture
- Marine Aquaculture
- Nutrition and Diseases in Aquaculture
- Aquaculture Economics and Management
- Aquaculture Engineering
- Marine Health and hygiene
- Aquatic Toxicology
- Environmental impacts in Marine
- New Technologies in Fisheries
- Marine ecology and Biological Oceanography
- Genetic biodiversity in aquaculture
- Marine Biotechnology
- Interaction between aquaculture and fishery
- Livestock production
