

## **Illuminating the untravelled avenue in Aquaculture and Fisheries**

**Ricardas Paskauskas**

*Chief researcher, Nature Research Centre, Institute of Botany, Lithuania*

Conferences Series LLC take great pleasure in inviting the scientific community across the globe to the 11th International Conference on Fisheries & Aquaculture during October 04-05, 2021, Webinar. This meeting will explore advances in the Fisheries & Aquaculture.

Young scientists, leading scientists, scholars, organizations, and all members of company sectors with different specialties, such as Fisheries & Aquaculture, will gather at the meeting. This is an open forum for young investigators (students, PhD candidates, and early-stage postdocs) working in all fields of Fisheries & Aquaculture. This forum will not only explore cutting-edge science to expand participants' scientific awareness, but it will also provide young researchers with many specially planned interactive sessions to help them advance their careers/research. The forum aims to promote a spirit of collaboration among participants by giving them the opportunity to network globally and build their own professional networks.

Young Scientist Awards and Best Poster Awards will be given out at the conference to recognize all individuals and organizations who have made a significant contribution to the scientific community. Participants, such as outstanding scholars, excellent graduates, or early academicians, and organizations, are given the opportunity to present their best research and projects relevant to the conference theme to the rest of the world through awards.

### **Young Researchers Forum - Young Scientist Awards**

Individuals are recognized for outstanding results in terms of scientific publications or presentations during the early stages of their scientific careers with this award. It also honors those who have made important and special contributions to the scientific community in relation to the conference theme. It also offers a forum for professional networking with researchers from other parts of the world who have common interests, as well as encouraging participants to participate actively in the International Science platform to improve their skills and knowledge base. The aim of these awards is to encourage, to recognize outstanding work, and to bring together participants such as Master's, Ph.D., and Post Doctorate students working in the field of Fisheries and Aquaculture.

### **Guidelines for Young Researchers Forum - Young Scientist Awards**

#### **Benefits**

Oral presentations are a great way to show off your findings. Learn about your field's new analysis methods and innovations, as well as how to advance your career. The forum will enable young investigators and experienced senior investigators from around the world to network and collaborate.

#### **Eligibility**

- Young Investigators, Post-Graduate students, Post-doctoral fellows, Trainees, junior faculty with a minimum of 5 years of research experience
- Presentation must be into scientific sessions of the conference.
- Each Young Researcher / Young Scientist can submit only one paper (as first author or co-author).
- Age limit - Under 35 yrs
- All submissions must be in English.
